FEBRUARY 20 - MARCH 21

ENVIRONMENTAL CAPACITY BUILDING & TRAINING PROGRAM

FIND YOUR CAREER PATH IN NET ZERO WITH NAIT'S ENVIRONMENTAL CAPACITY BUILDING & TRAINING PROGRAM.

In one month, you will be exposed to careers in the net zero sector through knowledge transfer sessions, classes, and even job shadowing with professional researchers. Turn your passion for the environment into a career in sustainability and stewardship. Make your move.

KNOWLEDGE TRANSFER SESSIONS

Learn from NAIT's professional researchers about careers in the net zero sector, including sessions on green energy systems, professional ecology and biology, and the latest knowledge on emissions reduction in the energy sector.

INTEGRATED GREEN SYSTEMS

THE PATH TO NET ZERO

ENVIRONMENTAL STEWARDSHIP

CAREER EXPOSURE TO CLEAN FUEL & HYDROGEN INDUSTRY

Enter the classroom for two courses: Introduction to Clean Fuels and The Hydrogen Economy. Each course will be hosted by a NAIT instructor across two sessions per course. You will learn the ins and outs of the clean fuels and hydrogen industries, and gain the knowledge to pursue further education and a career in this groundbreaking sector.

JOB SHADOWING SESSIONS

Put everything you have learned so far to work when you shadow NAIT's research team in its day-to-day activities. See the inner workings of the laboratories, understand how you can turn science and stewardship into a career, and discover if pushing the boundaries of the net zero space is a career you want.
